

TC-610

Professional Water Resistant

Two Way Radio

The TC-610 is ideal for construction, industrial and other applications looking for an affordable yet reliable radio in a compact & durable design. Its IP66 rated water protection make it extremely useful for jobs that may encounter wet environments during the work day or may need to wash the radio after use in a dirty environment.

You cant find a more powerful, rugged radio!

Features:

- IP66 water and dust rating for wet dirty conditions
- Maximum power of any brand radio. 5 Watts
- 16 Channels available in VHF & UHF
- 2 year warranty
- LED battery gauge
- Lithium ion battery with 14 hour life
- Designed to Military standards 810C/D/E/F
- Encoded transmission for secure communications
- Can be programmed to work with other brands

Frequency Range (MHz)	VHF: 136-174 UHF: 400-420*; 450-470
Channel Capacity	16
Channel Spacing (kHz)	25 kHz / 12.5 kHz
PLL Channel Stepping (kHz)	5 kHz, 6.25 kHz
Operating Voltage (V)	7.4 V
RF Power Output (W)	5W/2W (VHF) 4W/2W (UHF)
Battery	2000 mAh (Li-Ion)
Battery Life (5-5-90 duty cycle)	Over 14 Hours
Frequency Stability (ppm)	± 2.5
Operating Temperature (F°)	-4° ~ +122° (F°)
Antenna Impedance (Ω)	50
Dimensions	4.68 in. x 2.16 in. x 1.30 in.
Weight (with antenna & battery)	9.70 oz.

TC-610

Professional Water Resistant Two Way Radio

Kit includes:

- TC-610 Radio
- Lithium ion battery
- Battery charger
- Antenna
- Belt clip
- Wrist strap
- Programming
- Manual

Optional Accessories:

MCA02 (6) radio multi-charger

The multi-charger can rapidly recharge the batteries in up to 6 radios. This is a convenient option for customers wanting to keep their radios in a central location for easy storage and recharging each day.

SM08M3 Remote speaker mic

The remote speaker mic allows the user to wear the radio on a belt clip and the speaker can be positioned on a shirt or jacket so calls coming in can easily be heard. Calls out can be sent with one button.

HNK100 Headset with PTT

The noise canceling headset is designed for loud environments and can be worn under hardhats. The headset includes a inline push to talk (PTT) button. This makes it convenient to talk with the touch of a button.
