W3380 Wireless Load Indicator

Wireless
Load Link

The W3380 wireless system provides the operator with the load reading for the weight on hook. The display can monitor two load signals, boom angle, ATB and wind speed all wireless. The display has user adjustable limits. The W3380 works on both lattice and hydraulic cranes.

Why choose a Wylie W3380 System?

A proven product history no one can match.
Wylie's been building crane indicators since 1933!

We sell both wireless and hardwired systems so our recommendation's
are unbiased!

Uses internal antenna in the display and sensors for maximum durability.
External antennas are too easily broken!

Lithium batteries for two year average life.

Reliable and easy to operate.

Pre-calibrated for a fast installation.
